

THE STATE EDUCATION DEPARTMENT / THE UNIVERSITY OF THE STATE OF NEW YORK / ALBANY, N.Y. 12234

CURRICULUM AND ASSESSMENT—1
ROOM 760 EBA
(518) 474-5900

May 1995

To: Principals of Public and Nonpublic Schools Using the June 1995
Program Modification Edition of the Regents Examination in Earth Science

From: Mary A. Corrado *Mary A. Corrado*

Subject: Conversion Scale for the Earth Science Performance Test

The 15-credit conversion scale printed on the reverse side of this sheet must be used for the performance test scores of all students who are taking the program modification edition of the Regents examination in Earth science. A separate scale is provided for these students because the 10-credit scale provided in the Earth Science Performance Test Rating Guide is used only for students who are taking the regular Regents examination in Earth science. **Please make sure that each teacher who is teaching program modification Earth science receives a copy of this memorandum as soon as possible.**

Regents Examination in Earth Science
June 1995 Program Modification Edition
Performance Test
15-Credit Conversion Scale

The maximum total raw score for the performance test is 25 points. The maximum total number of credits allowed toward the score on the **program modification edition** of the Regents examination in Earth science is 15. Use the table below to convert the student's raw score to credits. Record both the total raw score and the total number of credits on the cover of the student's performance test answer booklet.

Total Raw Score on Performance Test	Total Credits on Performance Test
24-25	15
22-23	14
21	13
19-20	12
17-18	11
16	10
14-15	9
12-13	8
11	7
9-10	6
7-8	5
6	4
4-5	3
2-3	2
1	1
